UX/UI DESIGNER

Toulouse, Permanent contract, Full time, Starting date : ASAP

Delair

Delair is a world leader in professional UAVs and data solutions for Industries, Ag, Geospatial and Security. Its solutions revolutionize the way industries work with aerial digital data.

So far with customers in more than 80 countries, Delair's growth and expansion have been phenomenal.

By joining Delair you will do much more than just participate to the development of worldwide industrial drone solutions. You'll help many industrial companies make strategic decisions based on reliable & cost-efficient data.

Imagine a job you can enjoy while having an impact on a brand-new market. You can make a difference every single day as you develop and implement your ideas as part of a brilliant, cutting-edge company!

It is in technical excellence and perpetual innovation process that we recognize ourselves. This is why we encourage innovative ideas and incent our teams to develop their creativity.

As a young, energetic and highly motivated team, we work in a stimulating and pleasant working environment. Dedication and innovation are rewarding and rewarded, giving you a unique opportunity to gain valuable and challenging experience in a rapidly growing business with passionate and easy-going enthusiastic people.

Job description

Our cloud platform helps users manage various types of data : images, maps, plans, 3D models. It gives access to complex analysis tools and a collaborative space for users from vastly different backgrounds. Help us design user interfaces to empower this heterogeneous audience.

As a user-experience (UX) designer you should be able to understand our business requirements and any technical limitations. You will be responsible for conceiving and conducting user research, interviews and surveys, and translating them into sitemaps, user flows, customer journey maps, wireframes, mockups and prototypes.

Your missions

Responsabilites:
- Work closely with product and development teams to solve design challenges
- Create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas
- Establish and enforce design guidelines, best practices and standards
- Rapidly produce multiple concepts and prototypes; knowing when to apply pixel-perfect attention to detail, and when to make low-fi sketches and prototypes.

Qualifications:

- 2+ years experience designing UI for the web
- Professional SaaS tools design
- Experience with GIS, Maps and 3D are a plus
- Working knowledge of key design and prototyping tools (Sketch, Adobe Creative Suite, In-Vision, Axure, etc.)
- Experience creating wireframes, user flows, visual design assets, and interactive proto-types/high fidelity mockups
- Ability to communicate design ideas
- Familiarity with design sprints and the agile methodology
