

# QHSE ENGINEER

Toulouse, Permanent contract, Full time, Start date: ASAP

## Delair

Delair is one of the world's most experienced provider of drone-based solutions combining its high performance, long range UAV hardware with sophisticated analytics technology and operational services. We enable enterprises to monitor and digitize their physical assets from the air and turn the collected data into valuable business insights. Our solutions are used globally by customers in industries such as utilities, construction, agriculture, transportation, mining and oil & gas.

By joining Delair, you will participate in what is broadly recognized as the biggest technological paradigm shift of our generation: the digitization of the physical world. The combination of drones, Cloud-based services, AI (Artificial Intelligence) and Machine Learning, makes Delair a pioneer and leader in shaping tomorrow's technology landscape.

It is in technical excellence and perpetual innovation process that we recognize ourselves.

This is why we encourage pioneering ideas and incent our teams to develop their creativity.

As a young, energetic and highly motivated team, we work in a stimulating and pleasant working environment. Dedication and innovation are rewarding and rewarded, giving you a unique opportunity to gain valuable and challenging experience in a rapidly growing business with passionate and easy-going enthusiastic people.

## Job description

As part of the QHSE organization, the QHSE engineer is in charge of the quality control plan during the project and the mass production phases.

He/She has a key role in driving the continuous improvement of all QHSE related topics, with the internal departments.

## Your missions

- Drive and support the building and the correct execution of the quality control plan
- Animate the problem solving in production until the identification of the corrective actions
- Assist in complex checks and perform quality assurance checks at the production sites.
- Collect & analyse data, report on quality indicators.
- Provide support, suggestions and improvements on Delair internal processes
- Assist in external QHSE audits
- Report to the QHSE Manager
- Follow the quality activities of the production site in Belgium
- Regular business trips in Belgium

## The Profile

### ATTRIBUTES

You can show, through education or experience, that you:

- Have a strong affinity with electronics and mechanics
- Master Quality tools and techniques, at least 2 years of experience is a plus
- Are able to read technical drawings
- Have analytical skills

### QUALIFICATION AND SKILLS

And you also have the following human skills:

- Communication skills: fluent in English
- Proactive teamplayer with a strong drive
- Independent worker who takes initiative
