

Production Director

Labège, Permanent contract, Full time, Start date: ASAP

Delair

Delair is one of the world's most experienced provider of drone-based solutions combining its high performance, long range UAV hardware with sophisticated analytics technology and operational services. We enable enterprises to monitor and digitize their physical assets from the air and turn the collected data into valuable business insights. Our solutions are used globally by customers in industries such as utilities, construction, agriculture, transportation, mining and oil & gas.

By joining Delair, you will participate in what is broadly recognized as the biggest technological paradigm shift of our generation: the digitization of the physical world. The combination of drones, Cloud-based services, AI (Artificial Intelligence) and Machine Learning, makes Delair a pioneer and leader in shaping tomorrow's technology landscape.

It is in technical excellence and perpetual innovation process that we recognize ourselves.

This is why we encourage pioneering ideas and incent our teams to develop their creativity.

As a young, energetic and highly motivated team, we work in a stimulating and pleasant working environment. Dedication and innovation are rewarding and rewarded, giving you a unique opportunity to gain valuable and challenging experience in a rapidly growing business with passionate and easy-going enthusiastic people.

Job description

We are looking for an experienced Production Director to organize and oversee the manufacturing of Delair's UAVs. You will be ultimately responsible for the smooth running of all production lines and the quality of output.

Your missions

- End responsible for timing, quality and cost of product deliveries.

- Develop and execute long- and midterm production improvement strategies
- Budget owner for production
- Ability to take the lead on new product introductions
- Forecasting production volumes
- Follow up and qualify product or process change requests
- Advice new product project teams on good design for manufacturing practices
- Leading the operations and production engineering team
- Establish and monitor KPIs
- Organize team meetings
- Reporting to the Business unit

The Profile

- 5 years of experience in a similar role, preferably in a high-tech environment
- Master degree in engineering
- Good communication skills (whitecollar and Bluecollar communication)
- Be cost focused
- Solution minded
- Able to make quick decisions
- Be a reliable partner for other teams and the BU
- Able to coach a young motivated team
- Team player
- Knowledge of ERP, MES and PLM systems
- Good listener
- Excellent analytical skills
- Able to balance quality and quantity
- Able to work with tight deadlines
- Excellent Excel skills
