

## **Drone designer and manufacturer DELAIR gets ISO 9001 Quality Certification**

Following the audit conducted by DEKRA Certification from December 14 to 16, DELAIR gets ISO 9001:2015 quality certification for design, manufacture, sales, training and maintenance in operational conditions of drones and sensors.

This certification testifies the very high level service quality developed by DELAIR and its commitment to a process of continuous improvement for the satisfaction of its customers. With this certification, DELAIR stands out, more than ever, as a reliable industrial leader in design and drone production.

« This Quality Management System certification is a source of great pride for the entire DELAIR team. It confirms the performance of our industrial production tool, reflects our permanent desire to gain in efficiency and above all to increase the satisfaction of our customers through the design and production of operational, rugged and reliable drones in addition with a professional and responsive worldwide customer support » says Bastien MANCINI, DELAIR Ceo.

### **About DELAIR**

Founded in 2011 in Toulouse, DELAIR designs and manufactures aerial observation vehicles for industrial and security/defense applications. Established in more than 70 countries with thousands of drones in operation, the company aims to be the European leader in professional drones by 2030. With 60 employees, the company has achieved a nearly 7 million euros turnover in 2021 for a 1.5 million euros profit.
